MINI PROJECT

NETFLIX CLONE USING REACT

GitHub Repo

- I build a stunning Netflix clone using **React**, which replicates the UI of the popular streaming platform. The clone is **integrated with TMDB API**, providing users with a seamless experience. Fetched data from over 1000 movies and TV shows using TMDB API to provide users with a comprehensive library.

TO-DO USING REACT

GitHub Repo

- I designed a stunning To-Do app using **React.js** and **CSS3**, which enables efficient task management and organization through user-friendly interfaces.
